Education

Delhi Technological University (DTU)

Bachelor of Technology in Mathematics and Computing Engineering (CGPA: 7.72)

Jul 2022 – May 2026

Delhi, India

Salwan Boys Senior Secondary School

Class XII, CBSE (Percentage: 96%)

Jul 2019 – Jun 2021

Delhi, India

S.K.R Public School

Class X, CBSE (Percentage: 95%)

Jul 2009 – Jun 2019

Delhi, India

Experience

AI/ML Engineer Intern

Mar 2026 – Present

Novel Patterns Private Limited

Noida

- Building a Document AI pipeline using fine-tuned open-source LLMs to classify, split, and extract structured data from diverse financial documents (Balance Sheets, P&Ls, Notes, ITRs, and Audit Reports).
- Developing an LLM-powered alias generation layer for semantic schema mapping to replace rigid keyword rules, while optimizing multi-page preprocessing pipelines to handle noisy layouts.
- Engineering automated, highly normalized data extraction workflows designed to streamline reporting, eliminate manual overhead, and maximize pipeline efficiency.

Software Development Engineer Intern

Oct 2025 – Jan 2026

Woohl Startup

New Delhi

- Engineered a Integrate Shopify Button, Add Product Page similar to Shopify using ReactJs, Tailwind CSS
- Worked on Group Buys Feature with multiple parameters

AI-ML Engineer Intern

Oct 2025 – Nov 2025

Stirring Minds

New Delhi

- Built a RAG-based chatbot using transformer LLMs with embeddings and vector search, applying prompt engineering to improve response accuracy and reduce hallucinations
- Developed FastAPI endpoints, integrated with frontend, optimized latency, and deployed using Docker on cloud

Projects

Lungs Disease Detector From Chest X-Ray | Machine Learning, Digital Image Processing | [Link](#)

Nov 2025

- Prepared an automated lung disease detection system using a DIP pipeline (preprocessing, segmentation, GLCM + statistical features) and SVM classifier, achieving 75% accuracy on a 3,475 X-ray dataset

Misinformation Detector System | Machine Learning | [Link](#)

May 2023

- Developed Built multilingual NLP pipeline using fine-tuned MuRIL transformer for misinformation detection on 82K Indic news samples; applied preprocessing, tokenization & class-weighting to achieve 87.9% F1 (83.86% accuracy)
- Implemented scalable deployment on Hugging Face + Gradio web interface for real-time predictions

Furnito Business – AI Powered E-Commerce Web App | MERN | [Link](#)

Jan 2026

- Designed & deployed **Furnito**, a full-stack furniture e-commerce app on Vercel + Render with **JWT/Google OAuth**, **Razorpay payments**, order dashboard, and **Gemini chatbot** with 20+ reusable components; improved **load time ~10%** and **API reliability ~30%**

Technical Skills

Languages: C, C++, JavaScript, Python

Technologies/Frameworks: ReactJS, NodeJs, ExpressJs, Bootstrap, Git (Version Control), Github, MySQL, HTML, CSS, Tailwind CSS, Machine Learning, Scikit-Learn, Numpy, NLTK, Pandas, Generative AI, LLMs, Transformers

Core Competencies: Data Structures & Algorithms, OOP, DBMS, Operating System, Computer Networks, Excel, Data cleaning, Data visualization, MERN Stack Web-Development, Machine Learning

Achievements

- **Certifications:** [Cisco Cyber Security](#), [Microsoft Azure Cloud Fundamentals](#), [IBM Getting Started with AI](#)
- Zonal-level Debate Winner, Disciplined, Teamwork, Awarded School Topper, Merit-based scholarship in B.Tech
- **Competitive Programming:** Solved **300+** problems/contests on LeetCode and **450+** across other platforms
